

Optical Coatings Research & Innovation Company

❖ Optical Coating Solutions

- Coating Design
- Fabrication
- Process Development
- Consultation
- System sales

❖ Optical Coatings:

- Antireflection
- High reflection
- Pass/Block Filters
- Protection/Passivation
- Ion/plasma pre-treatments

❖ Coating Experience:

- Nonlinear Laser Crystals
- III-V Semiconductors: Edge & Surface Emitters, Photodetectors and Solar Cells
- Diamond, SiC, Silicon, Sapphire
- Laser Optics, Wafers

Photonics

Semiconductors

Thin Films

❖ System sales

OCRICOM represents two top of their field deposition system providers in the Finnish markets and can help our customers to find the best tools for their applications.
